FOR COLLEGES · PU COLLEGES · SCHOOLS

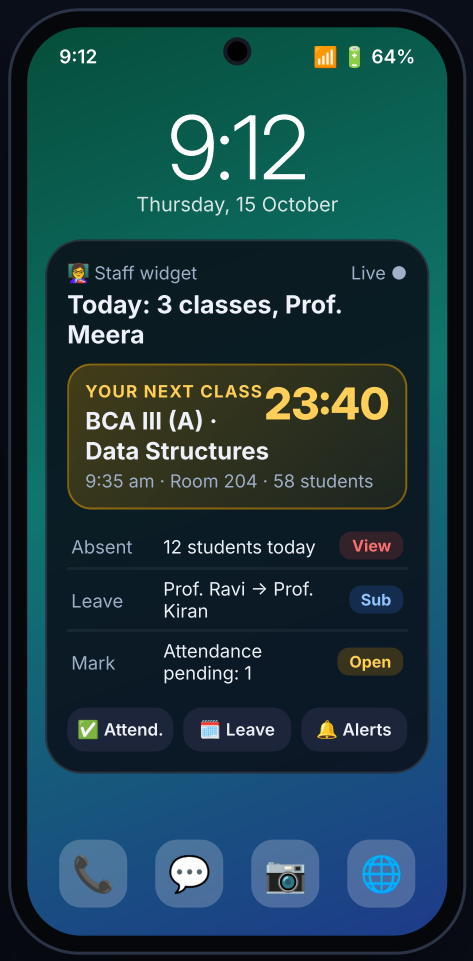

Your college, in every phone.

Smart campus app + Android widgets

Attendance, timetable, results, leave, alerts and reports - for the Principal, teachers, students, parents and hostel. Live on the phone's **home screen**, updated every minute.

🟢 Live with 578 students daily | 📱 Works on any phone | 🔔 Smart alerts | 💸 Very low running cost

⏱️ Live countdown

Next class, room and teacher - right on the home screen.

🔊 Speaks to you

"Tell me my day" - the widget reads out today's plan.

🔄 Updates itself

New features reach every phone automatically at night.

💡 Why it helps | 🎓 For students | 👩‍🏫 For staff | 🧩 All modules | 📞 Get it for your college

💬 WhatsApp: 98445 42132 | 📞 Call now | Tap a button - it opens directly.

WHY COLLEGES LOVE IT

One system. Everyone on the same page.

No more registers lost in staff rooms, WhatsApp forwards nobody reads or notice boards nobody sees. Every person gets exactly what they need, the moment they need it.

Principal & Management

- Today's attendance of the whole college in one glance
- Shortage list (below 75%) ready any time - no manual counting
- Who is on leave, who substitutes, which class was missed
- Usage reports: who is really using the app

Teachers

- Next class with countdown on the home screen
- Mark attendance in seconds, from the phone
- Apply for leave - substitutes suggested automatically
- Internal exams, duties and timetables in one place

Students

- Own attendance per subject, with early shortage warning
- Timetable, results, calendar, events and lesson plans
- Class reminders and "Your day today" - even spoken
- Give class feedback in two taps

Parents

- Progress card for parent-teacher meetings
- Attendance and marks they can trust
- Fewer phone calls to the office
- Photos and names of teachers they meet

Office & Hostel

- Hostel grocery, cleaning and electricity meter apps
- Library issue / return
- Fees and record books follow-up

Safe & reliable

- Separate login for every role - each sees only their own data
- Runs on Google Firebase cloud - nothing to install on a server
- Very low running cost, no big hardware

🎓 FOR STUDENTS

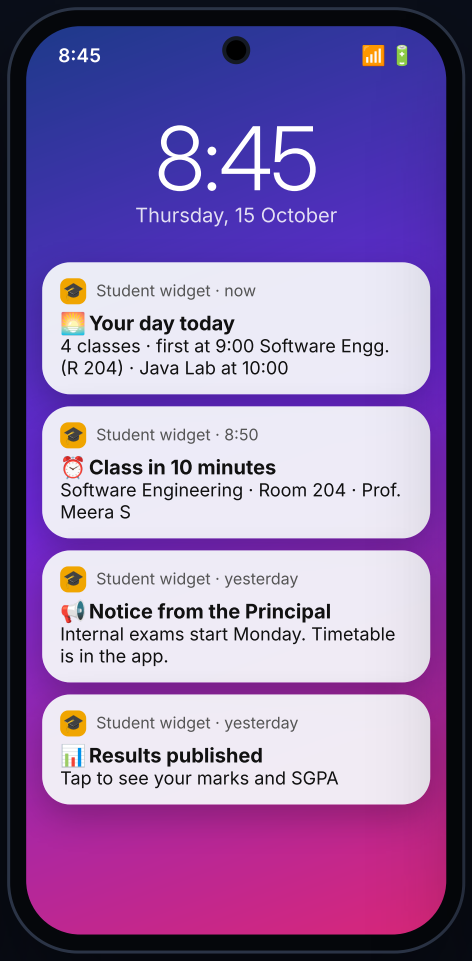

Everything a student needs, without asking anyone.

A student app that opens in any browser, plus an Android widget that sits on the home screen. Students check it 10 times a day - so they never miss a class or a notice.

Attendance, live

Per subject, with a warning before it drops below 75% - and how many classes to attend to recover.

Smart reminders

Class reminders, notices and results - only between 7 am and 9 pm and never during a class.

Timetable & feedback

Teacher photos, rooms, present / absent per class - and two-tap feedback that reaches the Principal.

🔊 Speaks the day

"Tell me my day" reads out classes, rooms and teachers - in the morning, hands-free.

🔒 On the lock screen

The next class shows even before the phone is unlocked.

📈 Shortage warning

Students see early when a subject is slipping - not at the end of the semester.

🗓️ Calendar & events

Holidays, exams and college events in one place, always current.

📸 Teacher photos

Students know who teaches which class - photos tap to zoom.

🌙 Never out of date

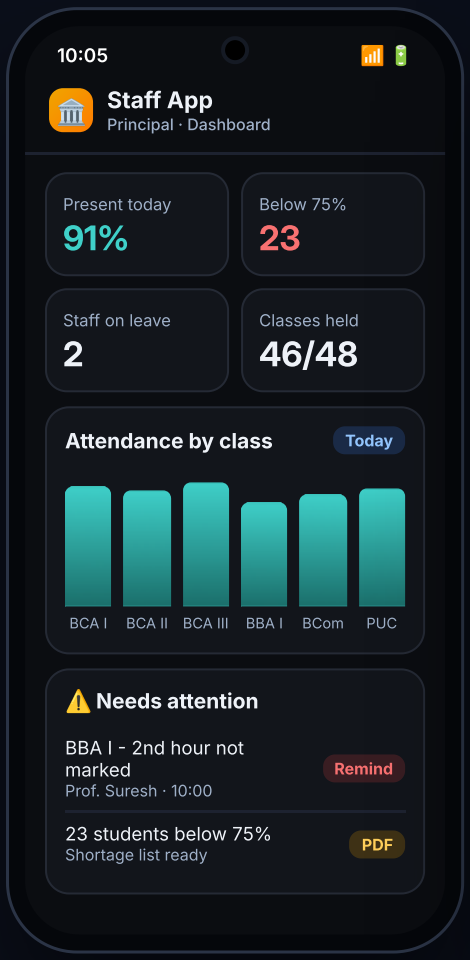

The widget updates itself every night. Nobody has to reinstall.

↑ Back to start

👩‍🏫 FOR TEACHERS, ADMIN & PRINCIPAL

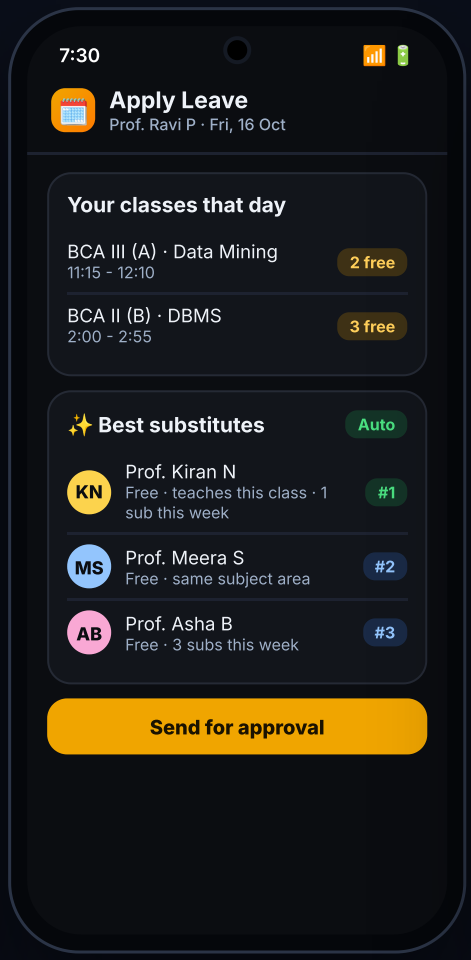

Run the college from your phone.

The staff app gives every role its own view. The Principal sees the whole college; a teacher sees their own classes; office and hostel staff see their own work.

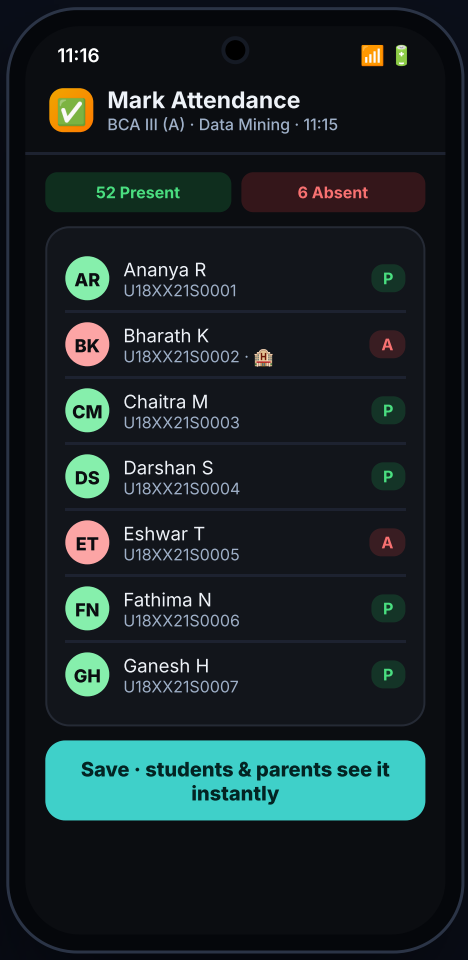

Principal's dashboard

The whole college in one screen: attendance, shortages, missed classes - with PDF / Excel export.

Leave with substitutes

Free teachers are ranked automatically; compensation is tracked, so no class is left empty.

Attendance in seconds

Photos of every student, one tap per name. 🏨 marks hostel students. Saved straight to the cloud.

Every role, its own view

Principal, admin, faculty, office and hostel staff - one app, each sees their own work.

Reports in one tap

Shortage lists, day attendance, internal timetables - as PDF or Excel.

Admin alerts

Missed attendance, logins and daily summaries come to the right person only.

Weekly summary

Feedback, attendance and fees summarised for the management every week.

Always correct

Teacher of every class comes from one live allocation - no mismatched lists.

Staff widget

Next class countdown, absentees and substitutes on the teacher's home screen.

🧩 ALL MODULES

Pick what you need. We build the rest.

Every module below is already working in a real college. Your version gets your name, logo, colours, courses, timetable and rules.

✅
Attendance
Student, subject, class and day-wise. Shortage lists, absentee tracking.

📅
Timetables
Class and teacher timetables, academic calendar, events and holidays.

📊
Results
Marks, SGPA and report cards for students and parents.

📝
Internal exams
Exam timetable, duty allocation, marks entry, PDF / Excel export.

🗓️
Leave & substitutes
Ranked substitute suggestions, approvals and compensation tracking.

🔔
Smart notifications
Class reminders, day summary, notices - only at sensible times.

⭐
Class feedback
Students rate each class; weekly summary per teacher and class.

👨‍👩‍👧
Parent progress card
Ready-made progress cards for parent-teacher meetings.

🏫
PU college / school
Separate dashboard for PUC or school classes, mid-term marks.

📚
Library
Book issue and return, who has which book.

🏨
Hostel
Grocery, cleaning checklist and electricity meter readings.

💰
Fees & records
Fee follow-up and record-book status for the office.

📱
Student widget
Android home-screen widget: countdown, day plan, spoken alerts.

👩‍🏫
Staff widget
One widget for faculty, admin and hostel - each sees their own.

🛡️
Admin control
Roles, users, global switches, device and usage reports.

☁️
No server, no big IT bill
Runs on Google Firebase and GitHub cloud. Apps install from the browser (no Play Store needed), widgets update themselves every night. Your college does not need its own server or IT team.

🎨
Made for your institution
Your college name, logo and colours on every screen and widget. Your courses, sections, periods and rules. New features added whenever you ask - the system keeps growing with you.

📞 GET IT FOR YOUR COLLEGE OR SCHOOL

From first call to live app - simple.

1

Call or WhatsApp

Tell us about your college: courses, students, what hurts most today.

2

See a live demo

We show the real apps and widgets working on a phone.

3

We set it up

Your logo, courses, timetable, students and staff loaded for you.

4

Go live + support

Training for staff, and new features as you ask for them.

Do students have to install anything?
No. The app opens in any browser and can be added to the home screen. The Android widget is optional.

Does it work for schools and PU colleges?
Yes - classes, sections, PUC streams and parent progress cards are already built.

Is our data safe?
Every person logs in with their own role and sees only their own data. Hosted on Google's cloud.

Can you add what we need?
Yes. The system is built to grow - new reports, alerts and pages are added on request.

TALK TO THE DEVELOPER

Want this app & widgets for your institution?

Tap a button below - WhatsApp opens with a message already typed. Free demo, no obligation.
